Dear Verified Premium Plus Recipient:

Congratulations for receiving Verified Premium Plus certification on your dairy. This honor is a visible, third-party expression of your commitment to meeting consumer needs.

We would be pleased if you would place the enclosed sign where it can be viewed by your employees and/or guests.

We applaud the efforts of GEA Farm Technologies to encourage milk producers to participate in the Dairy Quality Center's Verified Premium Plus program. Your participation indicates you are aware of consumers', neighbors', and regulators' interest in and concern about how well you produce milk.

Please do not hesitate to give us a call.

Sincerely,

Keith R. Carlson
Executive Director
